

<p>Product images</p>	
<p>Brief description</p>	<p>The AmbientTrack device support is installed on the skirting board and allows you to vary the position of sockets, a computer or multimedia connections. It can also be easily added to at a later date. The devices support are made of aluminium, in the natural aluminium or stainless steel surface finish. The AmbientTrack device support offers the option of backlighting the shadow gaps with the AmbientTrack LED strips as well as installing AmbientTrack LED spotlights to illuminate the walls.</p>
<p>Scope of delivery</p>	<p>Complete set, consisting of:</p> <ul style="list-style-type: none"> • Baseboard • Cover • End section • Tool box 2-fold:
<p>Product diagram</p>	
<p>Material/Colours/Surfaces</p>	<p>Baseboard</p> <ul style="list-style-type: none"> • Anodised natural aluminium E6EV1 <p>Cover and end section:</p> <ul style="list-style-type: none"> • Anodised natural aluminium E6EV1 • Aluminium stainless steel finish
<p>Versions</p>	<ul style="list-style-type: none"> • 2-fold perforation for switch systems with 55x55 central plates • 2-fold perforations for switch systems with 64x64 central plates • 2-fold perforations for switch systems with 71x71 central plates

<p>Installation options (sketch)</p>	<p>Surface-mounted</p>																																																																																										
<p>Installation instructions</p>	<p>Fit the baseboard for the device support to the position of your choice on the wall. Position the cutout above the baseboard of the skirting board. Remove the cover of the skirting board first.</p>	<p>Insert the cables from the skirting board into the device support and wire them to the tool box. Then clip the pre-equipped and wire tool box into place and secure it.</p>	<p>Put on the cover and the end section of the device support. The covers of the skirting board are fitted flush.</p>																																																																																								
<p>Product benefits Device support</p>	<ul style="list-style-type: none"> • Designer cable duct system • Variable positioning of sockets and other connections • No cutting into walls when relocating or adding to sockets • Installation of standard socket systems • Surface-mounted shadow gap creates a free-floating impression • No fingerprints on the surfaces • Screwless clip cover assembly • Upgrading to wall spotlight with LED end section • LED light lines can be added
