MOVIE 200

The Movie 200 is a complete 5.1-channel system designed to deliver immersive surround sound for movies, music, and gaming. All speakers are perfectly tuned to work together, delivering impressive, spacious home theater sound at a particularly attractive price. The Movie 200 consists of four satellite speakers and a center speaker. It is complemented by a powerful subwoofer that is optimally tuned to the overall system and provides a powerful bass foundation. The matching wall mounts for the four surround speakers are included in the package. Alternatively, the speakers can be placed on the LS 90.3 speaker stands, available separately.
