

TOWNUS SUB 12

The Townus Sub 12 active subwoofer operates according to the bass reflex principle with a downfire passive radiator. To guarantee precise mechanical performance, it is equipped with a lavishly dimensioned drive unit including the latest generation of wave surround technology. Thanks to its high-quality technical components and high amplifier power, the Townus Sub 12 creates a lively listening experience with playful ease. It also impresses with its high power handling and enormous dynamic reserves.
