

RANGE : *BOREA*MODEL: *BR02*

The bookshelf speaker Borea BR02 is the most compact speaker of the range. It fits easily on a dedicated stand (S02/S04), your bookshelf or most other furniture. A perfect introduction to the world of hi-fi, this small speaker will surprise you by the immersion and sound amplitude it provides.

Equipped with a 25mm EFS silk dome tweeter and a 13cm transducer with a natural cellulose paper membrane, this speaker transposes all the richness of the voices and instruments tones, while maintaining a surprising bass level for its reduced size.

It will fit perfectly in rooms of up to 20m², offering the dynamism and energy emblematic of TRIANGLE. The BR02 can also be used as an effect channel (Surround or Atmos) in home theater setups.
